Agenda

12:00 EPA Welcome and Overview of Agenda

Progress and Next Steps on Dialogue Group Commitments

12:10 Work group on lab referencing

GOAL: Share progress, get group input, prepare for adoption at next meeting

- Progress since Jacksonville – draft paper
- Next Steps – Group Discussion
 - What responses do you have to the vision outlined in the draft concept paper?
 - What are some options or proposals for implementing this vision?

12:40 Increasing OA / OC for accuracy of devices

GOAL: Develop collective vision, brainstorm next steps

- Next Steps – Group Discussion
 - What outcomes should this group work toward regarding device accuracy?
 - If the group/initiative is successful, what will it look like 5 years from now?

1:35 Responding to perceptions of conflict of interest between AARST and NEHA/NRPP

GOAL: Discuss responses, brainstorm next steps

- Progress since Jacksonville – Responses from States, NEHA/NRPP historical timeline
- Next Steps – Group Discussion
 - What actions c/should the dialogue group take in response to these comments?
 - What else could be done to educate the radon community regarding this issue?

1:55 Reconciliation of differences and similarities between ASTM E-2121 and AARST's RMS

GOAL: Update group, develop options for next steps

- Progress since Jacksonville – draft background paper
- Next Steps – Development of Options, Group Discussion
 - What options exist for next steps in moving toward one consolidated mitigation standard?
 - What options exist for moving toward avoiding future standard controversies? (i.e. one mutually acceptable standard setting process/entity? multiple non-overlapping universally credible processes/entities? other ideas?)
